Additional data storage and privacy policy considerations

In addition to the non-personally identifiable data collected by cookies, this website also offers the ability to contact with us via contact forms, newsletter registration forms, downloadable E-books, free downloadable gifts, webinars and other similar files.

Articles ("blogs") on DrMarniOnline.com may include embedded content (e.g. videos, images, articles, etc.). Embedded content from other websites behave in the exact same way as if the visitor has visited the other website.

These websites may collect data about you, use cookies, embed additional third-party tracking, and monitor your interaction with that embedded content, including tracing your interaction with the embedded content if you have an account and are logged in to that website.

Commenting on DrMarniOnline.com is currently turned OFF. If at any point commenting is turned ON, the data collection form collects the data shown in the comments form, and the visitor's IP address and browser user agent string to help spam detection. If you leave a comment, the comment and its metadata are retained indefinitely. This is so we can recognize and approve any follow-up comments automatically instead of holding them in a moderation queue. Visitor comments may be checked through an automated spam detection service.

An anonymized string created from your email address (also called a hash) may be provided to the Gravatar service to see if you are using it. The Gravatar service privacy policy is available here: https://automattic.com/privacy/. After approval of your comment, your profile picture is visible to the public in the context of your comment.
